SENATE RESOLUTION

URGING THE GOVERNOR, THE DEPARTMENT OF AGRICULTURE, THE
UNIVERSITY OF HAWAII COLLEGE OF TROPICAL AGRICULTURE AND
HUMAN RESOURCES, AND OTHER RELATED ENTITIES TO TAKE ACTION
TO HELP EXPAND THE AQUACULTURE INDUSTRY IN THE STATE.

1 WHEREAS, one of the Governor's key issue platforms is to
2 double local food production by 2020; and

3
4 WHEREAS, nearly ninety percent of Hawaii's current food
5 stock is imported, including more than sixty percent of seafood
6 consumed in the State; and

7
8 WHEREAS, importing food in such high quantities leads to
9 higher food prices, increased carbon emissions, and increased
10 threats from invasive species; and

11
12 WHEREAS, several studies have shown that anywhere from
13 twenty to thirty-three percent of seafood imported to the United
14 States is fraudulently labeled, posing serious health risks and
15 sustainability concerns; and

16
17 WHEREAS, Hawaii's per capita fish consumption is almost
18 three times larger than the per capita fish consumption of the
19 United States mainland; and

20
21 WHEREAS, in 2017, Hawaii's aquaculture industry farm gate
22 value was \$76,400,000, the third highest contribution to the
23 economy in diversified agriculture; and

24
25 WHEREAS, Hawaii's favorable climate and geography allow for
26 inherent advantages benefitting aquaculture production; and

27
28 WHEREAS, the former Aquaculture Development Program within
29 the Department of Agriculture, once a critical program that
30 helped propel Hawaii to the forefront of aquaculture research
31 and development, has recently been downsized, overhauled to

1 include livestock issues, and is now known as the Aquaculture
2 and Livestock Support Services Branch; and
3

4 WHEREAS, Senate Bill No. 753, currently before the
5 Legislature, acknowledges the importance of the Aquaculture
6 Development Program and proposes to revitalize the Department of
7 Agriculture's Animal Industry Division; and
8

9 WHEREAS, a revitalized aquaculture industry could help
10 revitalize rural communities that have been increasingly left
11 behind by other economic drivers; and
12

13 WHEREAS, the potential for aquaculture is enormous, and
14 doubling current aquaculture production in the United States
15 would create fifty thousand jobs and generate one billion
16 dollars in market value; and
17

18 WHEREAS, more investment and research into the aquaculture
19 industry is needed, including investment and research into
20 different types of aquaculture, aquaculture system optimization,
21 economic implications of various methods of aquaculture
22 production, and sustainable scaling methods; now, therefore,
23

24 BE IT RESOLVED by the Senate of the Thirtieth Legislature
25 of the State of Hawaii, Regular Session of 2019, that the
26 Governor, the Department of Agriculture, the University of
27 Hawaii College of Tropical Agriculture and Human Resources, and
28 other related entities are urged to take action to help expand
29 the aquaculture industry within the State in an effort to meet
30 the Governor's goal of doubling local food production; and
31

32 BE IT FURTHER RESOLVED that the University of Hawaii
33 College of Tropical Agriculture and Human Resources is urged to
34 transfer parcels identified as Tax Map Keys 5-8-001-013,
35 5-8-001-055, 5-8-001-007, and 5-8-001-006 to the Agribusiness
36 Development Corporation for the purposes of establishing
37 aquaculture production in those lands; and
38

39 BE IT FURTHER RESOLVED that certified copies of this
40 Resolution be transmitted to the Governor, Chairperson of the
41 Board of Agriculture, Administrator of the Department of
42 Agriculture Animal Industry Division, Program Manager of

S.R. NO. 96

1 Aquaculture and Livestock Support Services, Dean of the
2 University of Hawaii College of Tropical Agriculture and Human
3 Resources, and Executive Director of the Agribusiness
4 Development Corporation.
